- 1 3G devices only:** to replace the SIM card, loosen the green screw and open the card slot. Place the new card on the matching SIM adapter. Slide the adapter into the slot, close it, and tighten the screw.
- Plug all accessories into Hub. Provided Ethernet and USB cords are optional.
- Plug power brick cable into Hub charger port ⚡.
- Plug power cord into power source. Device will automatically power on.
- Pull on receipt door and load paper.

Hub Ports

Switching Hub cable's direction:

- Turn Clover Mini over to access underside
- Use provided screwdriver to loosen green screw
- Switch cable to desired direction
- Tighten green screw (be sure to **not** overtighten)

Green screw on Hub connector must always be tightened to ensure reliable connection.

Secure PIN Entry and PIN Entry Aid

Place the PIN Shield on your Clover Mini for secure PIN entry. The PIN Entry Aid can assist cardholders with disabilities who have difficulty using a touchscreen to enter their PIN.

For security purposes, contact us immediately if your PIN Entry Aid does not match the images below.

Front

Back

Transactions with the PIN Entry Aid

When taking a payment, tap the “USE AID” button on the Enter PIN screen and follow on-screen instructions to securely place the aid over the screen and allow a customer to enter their PIN. Remove aid after the customer removes their card.

Additional Accessibility Features

Clover Mini incorporates other native Android accessibility features such as larger text and magnification gestures (not available during secure PIN entry). These features can be found in the Accessibility menu in your device Settings.
